

CO-CREATING LIVES

EDUCATE. EMPOWER. ENRICH.

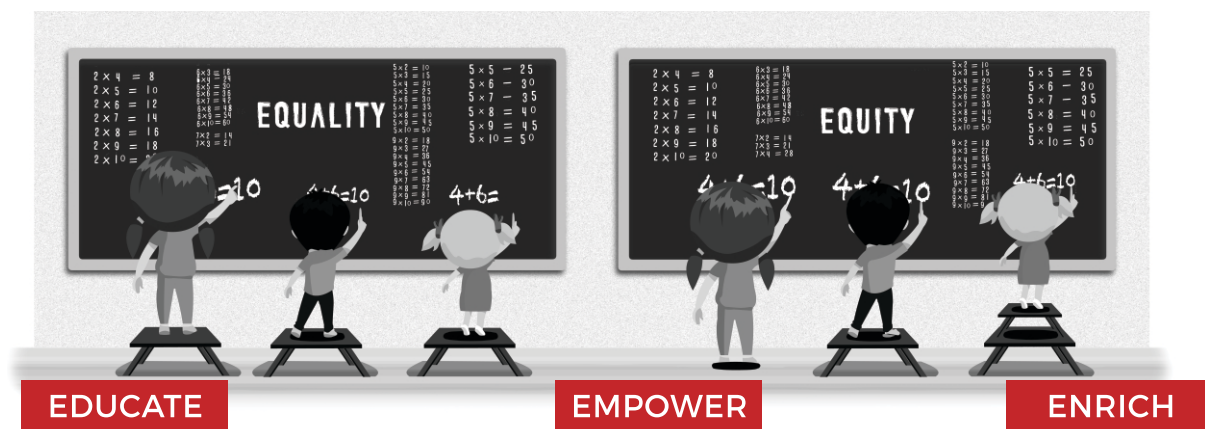

At the WNS Cares Foundation, we believe that dreams should be turned into realities and aspirations to rise above socio-economic divides should be nurtured. Through our holistic initiatives, we co-create empowerment for less-privileged children and youth across the globe by collaborating with schools, teachers, parents and WNS volunteers.

The Heart of WCF

The Learning Center is the core of the Foundation's strategy to educate, empower and enrich. Understanding the felt needs of target groups, the Learning Center deploys its knowledge and expertise to shape and sustain every program initiated by WCF. Taking into account specific learning requirements, the Learning Center develops customized programs and facilities, including computer literacy, libraries, remedial education, life-skills and career-oriented courses, through unique and innovative formats.

THE Three Pillars OF THE WNS CARES FOUNDATION

The Foundation is committed to building an equitable society, through a spectrum of sustainable initiatives for less-privileged children and youth, guided by its 3 pillars: Educate, Empower and Enrich.

With digital learning centers promoting digital literacy for all, mobile libraries that bring learning to remote areas and other innovative programs, the Foundation seeks to EDUCATE young minds and widen horizons.

Our vocational guidance, placement assistance and leadership training programs work to EMPOWER high school students to build a productive future.

Through sports, art and craft, self-defense programs and educational trips, the WNS Cares Foundation helps ENRICH lives and develop potential.

Our Volunteers: People Who Make a Difference

Every day, **14+** volunteers work in a WCF school or deliver a program, across **10** countries

Driven by a **shared sense of purpose**

15,000+ WNS volunteers across locations

OUR CORE BELIEF

The Foundation's core belief that every individual has the power to educate, empower and enrich is expressed in the equation

Global Impact INITIATIVES

169 schools have benefited from our computer-aided literacy program, giving **63,395** children access to digital-led education.

92,755 children now have enhanced language skills, thanks to reading programs conducted through mobile van libraries, school libraries and community library set ups, globally.

114 schools have benefited from self-defense programs that have equipped **5,998** girl children with the skills to defend themselves.

1.2 million children have learnt to stay safe in cyber space thanks to the Cyber-Security Awareness Program **#ThinkTalkTeach**, conducted in schools and through multiple social media channels.

Lives Transformed

The Foundation's initiatives have had a significant impact on children and youth across the globe. With programs that supplement education, stimulate and develop creative potential and inculcate valuable life skills, we have been able to empower many to re-imagine their futures.

Global Impact Day (GID)

GID brings together every member of WNS globally to celebrate the impact created by Foundation throughout the year. Finals of Spelling competition, Math Olympiad, Art & Craft and Cyber security quiz are some of the contests celebrated at the GID over the years using a video wall. The recent Cyber Awareness drive impacted 135,000 children from 345 schools across 9 countries.
