

**HUMANANA**  
PEOPLE TO PEOPLE INDIA

**H**umana People to People India (HPPI) has been working to empower the underprivileged and marginalised people of rural and urban India for the past 22 years. HPPI was registered as a not-for-profit company in 1998 under Section 25 of the Companies Act, 1956.

HPPI has been working towards bringing a positive change in people's lives through implementation of scalable projects aimed at transferring knowledge, skills and capacity to individuals and communities to help them come out of poverty. HPPI's development programmes are designed in alignment with United Nations' Sustainable Development Goals.

**HPPI has implemented over 160 projects across India and have worked shoulder to shoulder with the poorest farmers, women, urban slum dwellers, homeless people and children to help them improve their quality of life.**

**HPPI has been awarded the prestigious Aventus Prize on women empowerment in year 2019 and the Award for excellent CSR work at the "World CSR Day Conference" in February 2020.**

## Quality education for all

HPPI is working closely with state governments and national and international partners to implement education initiatives for all age groups in the areas of pre-school, teacher training, in-school intervention, remedial classes, out-of-school children (OOSC) and adult literacy.

Through its innovative 11-month Kadam (Step-Up) Programme, OOSC are enrolled in Kadam centres to bridge their learning gaps through the right blend of academic learning and skill-based experiences suitable for varied age-group (6-14) and learning levels. During the past three years, HPPI has enrolled more than 72,000 OOSC under the Kadam programme.

## Women in Action

Women in Action help create strong communities and promote gender equality by being an active participant in their families and society. HPPI through its women-centric interventions equip girls and women with the right set of skills, vocational and entrepreneurship training and financial literacy to be confident and financially independent.

In the Tejaswini Project implemented in Jharkhand, young women and adolescent girls join the Tejaswini Clubs where they are empowered with life skills education. In 2019-20, HPPI through its entrepreneurship programme – Jeevika – trained more than 8,600 women who went on to start or scale-up their own enterprise.

## COVID-19 relief work

The current global pandemic has brought communities together and with the belief that the power to change lies in the people, HPPI expanded its efforts beyond the core programmatic areas and provided people with information, basic essentials and medical assistance. With crowdfunding from individuals, employees and support from existing and potential partners, HPPI mobilized help to more than 680,000 people across communities in the wake of Covid-19.

As on July 11, 2020, 80,403 families received food packages, 63,071 people received protective gears and masks and 90,182 people availed the hot meal facilities provided across various HPPI projects.
