

Humana People to People India (HPPI) has been working to empower the underprivileged and marginalised people of rural and urban India for the past 21 years. It is registered as a not-for-profit company under Section 25 of the Companies Act, 1956.

HPPI is working towards bringing a positive change in people's lives through implementation of scalable projects aimed at transferring knowledge, skills and capacity to individuals and communities to help them come out of poverty. HPPI's development programmes are designed in alignment with United Nations' Sustainable Development Goals.

HPPI is implementing 70 projects across 13 states of India impacting around two million people. HPPI has been awarded the prestigious Aventus Prize on women empowerment in year 2019 and the award for being the "CSR Implementing Agency of the Year" at the 5th India CSR SUMMIT 2018.

Key focus areas of HPPI

Education

Livelihood and Community Development

Health

Environmental Sustainability

Microfinance

Bridging the learning gap for out-of-school children

HPPI's innovative model *Kadam* Step-Up Programme focuses on getting out-of-school children (OOSC) back in school. It is an 11- month program where OOSC are enrolled in the *Kadam* centres that are a right blend of academic learning and skill-based experiences suitable for varied age-group (6-14) and learning levels. Since 2005, 50,000+ students have been enrolled in the *Kadam* centres and so far 20,000+ OOSC have been mainstreamed into the formal school system.

HPPI is also working closely with state governments and partner to improve the quality of education by implementing education initiatives in areas of teacher training, in-school intervention, pre-schooling and adult literacy.

"Adopt a Village"- Holistic Community Development

To achieve a community of healthy, strong and educated families, many companies under their Corporate Social Responsibility wants to adopt a village or an entire community in the urban slums and achieve an holistic development. Based on the local needs and primary assessment, the projects often focus on improving the livelihood, health, sanitation and ensures enrolment of out-of-school children in schools. It also promotes women literacy, skills training of youth, tree plantations, cleaning drives and establishment of nutritional gardens.

Empowering women through Literacy and Entrepreneurship training

Women's equality and empowerment is one of the 17 Sustainable Development Goals and integral to all dimensions of inclusive and sustainable development. HPPI is empowering women with skills and the opportunities to take charge of their own path and participate equally in their communities. In 2018-2019, HPPI impacted approximately 2,00,000 women through its various projects, which trained women in functional and financial literacy as well as skills & entrepreneurship. These skills equipped them to start or scale up their own enterprises and income-generating activities.
