### MY FIRST RESEARCH TO SERVE MANKIND

I had a sister who expired at an early age of 18 years due to food poisoning, which was a great shock to my entire family. One day my sister came into my dream flashing a light into my life to work for the disabled. For a week I was disturbed as to how to go about it. Then one day I saw a handicapped person begging at Mahalaxmi signal point Mumbai (INDIA), where many rich people plying in luxurious cars passed by without caring to give the poor man even a rupee. I gave a serious thought, as how to motivate & rehabilitate such people they who are neglected in the society and considered a curse, their disability is seen but they are not considered as **Differently Aabled**.

If an opportunity is given to them by offering a suitable job, which could be within their capacity, so that they can also earn their daily bread with pride. How ever a novel idea made me realize the necessity of starting a Rehabilitation Trust in loving memory of my sister "Francina" whose pet name was Fancy. Hence I started an Institution titled **Fancy Rehabilitation Trust** for the welfare of the ignored & neglected handicap people.

**Fancy Rehabilitation Trust** established in the year 1988, registered in 1992 with the Charity Commissioner under the Mumbai Public Trust Act, 1950 (INDIA). To avail donations, we have required documents like 12A, 80G, 81B, FCRA.

### STEPPING STONE

Shri. Suresh Prabhu the Hon'ble Minister was the first person to give me a stepping stone to rehabilitate the illiterate & unskilled handicaps. Since I knew Shri. Suresh Prabhu very closely from the time he was the chairman of Saraswat Co- operative Bank Ltd. (INDIA). I shared my good vision & good thoughts to support the cause requesting him to provide suitable jobs for the handicaps such as housekeeping, cleaning of office equipments, binding of bank register stamping of documents etc. Shri. Suresh Prabhu was impressed by my concept and gave our NGO the first opportunity to clean his own flat situated at Khar (INDIA) on trail basis, he found the work of the handicaps to be satisfactory and considered my request to provide service to all the branches of Saraswat Bank. Thus I was able to rehabilitate nearly 400 handicaps & other less fortunate.

### MY SECOND RESEARCH TO SUPPORT ACCIDENT PRONE PEOPLE

While I came across a keralite family I was given to understand, of a lady by name Nisha Ramesh Nair having 4 yrs old daughter she was mentally disturbed by her husband's nuisance being addict to alcohol, he use to torture her, since his intoxicated habit had gone bad to worse, he lost his prestigious job with Tata's and also deserted his family and left for his native place without informing them. Since the flat in which she lived was rented she did not have the money to pay the rent nor money left to buy ration. She immediately called her parents from Kerala (INDIA), realizing the sorrowful condition of their daughter; they immediately rushed to Mumbai (INDIA), in a frustrated state of mind. While crossing the track to reach to the other side of the platform her father Mr. Vasudev Menon came under the wheels of a train and lost both his legs. Seeing the bad fate of the family, I was inspired to realize that there could be many such accident prone victims lying in bed for months & yrs with no source of income. I decided to support such victims with monthly ration on a regular basis.

### MY THIRD RESEARCH TO SUPPORT HILL TOP SLUMS

While on our research we had come across huge hills in the city of Mumbai (INDIA), surfaced with thousand of hutments as shown above. We the members personally climbed up the steep hills to make a physical survey to support severe accidental people and old sick people lying in bed helplessly with no source of income. Realizing the hard work of the poor people, especially the labour class people, all living above 100ft height suffering & starving. We would like to remind rich high profile people, that today whatever they are is because of the hard work of these poor people. If it was not for them the progress in the world would have been zero. Since we are an NGO purely working for different cause for the past 32yrs without volunteering for donation nor government grant, the number of the above mentioned helpless people being large in number we are unable to support the many. We therefore pledge our humble request to one & all do not waste time and money on religious idol because the huge collection in the shrine is being misused by Sadhus, priests & dirty politicians. Instead be generous to spend on the living idol.
