

Transformation of ONGC - CSR

Every year, we at ONGC, have a new CSR story to share. With more than Rs 500 Cr worth of CSR projects being implemented in the financial year 2017-18, ONGC strengthens its commitment towards creating an inclusive society.

As mandated in the Companies Act, ONGC already has in place a CSR & Sustainability policy and a Board Level Committee on CSR headed by an Independent Director. Last year the company crossed yet another milestone by rolling out a detailed Standard Operating Procedure(SOP) manual on CSR to bring about more transparency and uniformity in implementing CSR projects. This robust CSR framework of ONGC has guided the company to successfully implement projects through its 24 work centres spread across the country. Today, our CSR footprints can be traced from Uri in Jammu & Kashmir where we have rebuild the civilian houses devastated by terrorist to development of Mangalajodi village near the wetlands of Chilika Lake in Odisha, where millions of migratory birds visits every year.

The target of spending Rs 487Cr CSR budget in a single year was a challenging task which calls for judicious planning, execution, monitoring, documentation and reporting. But, ONGC takes pride in over achieving this target by implementing CSR projects worth Rs. 500 Cr in the year 2017-18. When Govt. of India, gave directives to all PSEs for spending 33% of the CSR budget on Swachhata activities, which account to 177 Cr for ONGC, we went a step ahead and implemented Swachhata project worth Rs. 184.46 Cr. Besides Swachh initiatives, around Rs. 131 Cr was alone spent on Education and Skill Development and another Rs. 185 Cr was spent on Health Care, environment sustainability, women empowerment, sports, rural development, capacity building, etc.

Flagship Projects

Swargadeo Siu-Ka-Pha Chikitsalaya

Handing over the first cheque to BAVP on signing of Agreement.

The 3D model of the Multi Speciality Hospital, Sivasagar.

ONGC multi-speciality hospital project at Sivasagar named after the first Ahom King of Assam Swargadeo Siu-Ka-Pha is the biggest ever CSR project undertaken in the history of ONGC CSR. Prior to taking up the project, M/s Pricewater House Cooper (PWC) was engaged to survey the health care scenario of Sivasagar and upper Assam. As per the Detailed Project Report submitted by PWC, it was found in entire upper Assam there was a bed deficit of 961 beds and in Sivasagar alone there was a bed deficit of 589 beds. Further, Sivasagar has only 0.52 hospital beds per 1000 population, much lower than national average of 1.1 beds per 1000 population. After thoroughly analysing the alarming health care scenario of upper Assam, ONGC Board accorded approval for setting up a 362 bed Multi Speciality Hospital at Sivasagar to be implemented in three phases at an estimated cost of Rs 316.09 Cr.

Hon'ble Minister of P&NG, at Bhumi Pujan Ceremony

Dr Babasaheb Ambedkar Vaidyakiya Pratishthan (BAVP), having more than 28 years of experience in Health Care sector has been engaged as Construction, Operating and Management (COM) partner for this project. The prime objective of the hospital is to provide quality health care services to the people of Northeast at an affordable cost. The charges for treatment will be as low as 70% of the market price and further discount of 50% will be provided to economically disadvantaged people. The project will be implemented in three phases of which an amount of Rs 99.07 Cr has already been sanctioned for the first phase, which is scheduled to be completed by July 2019. M/s Sharpoorji Pallonji Company Pvt Ltd has been engaged by BAVP for undertaking the construction of the hospital. The construction work of the first phase of the project is in progress, which is scheduled to be completed by July 2019, however the OPD services will start from May 2018 onwards.

National Cancer Institute, Nagpur

The National Cancer Institute at Nagpur, will be 455 bedded quaternary care oncology centre. The centre will provide comprehensive cancer treatment, patient care and research through sustainable charity. In addition to providing general cancer care, the institute will also create specialty groups of highly skilled professionals. The institute also plans to start University recognized training courses for nurses, paramedical staff and medical fraternity including super specialty training in Oncology and PhD programs.

ONGC has extended support of Rs 100 Cr for construction of first, second floor and procurement of medical equipment for radio diagnostic facilities (like MRI, Citi scan, ultrasound, mammography, x-ray and bone marrow density meter, etc.) for the hospital. The equipment has already been commissioned on the ground floor of the hospital and is already being used for investigations of patient.

Dr. Aabaji Thatte Seva Aur Anusandhan Sanstha is the implementing partner for this project. Primary beneficiaries of the project will be patients referred by NGOs, local physicians in and around 500 km radius of Nagpur. It is expected to benefit around 1500 to 2000 people every year from Vidharbha region of Maharashtra, parts of Chhattisgarh, Madhya Pradesh and Andhra Pradesh.

Restoration of Kunds and Swachh Iconic places

ONGC took the responsibility of cleaning and beautification of four famous Kunds of Varanasi namely Durga Kund, Lakshmi Kund, Lat Bhairav, Karim Kund at a cost of Rs 11.46 Cr. Hon'ble Prime Minister himself inaugurated the Durga Kund and Lakshmi Kund at Varanasi and was all praise for ONGC. The project is being implemented in partnership with M/s National Buildings Construction Corporation Ltd and Nagar Nigam Varanasi.

Further, as part of Government Initiative for Swachh iconic places, ONGC has taken up clean and green initiative at Tirumala Tirupati Devasthanam, where 7 km long separate water pipelines is being laid for pumping treated waste water from tertiary treatment plants to gardens along the ghat road. Also 130 cleaning machines and solid waste management plant of capacity 30 MT per day has been installed. Apart from this, energy saving measures like installation of SCADA system and battery operated vehicles for pilgrims is also being introduced. Lakhs of devotees visiting this shrine will be benefited through this project.

Hon'ble Prime Minister himself inaugurated the Durga Kund and Lakshmi Kund at Varanasi and was all praise for ONGC.

ONGC Skill Development Institute at Ahmedabad

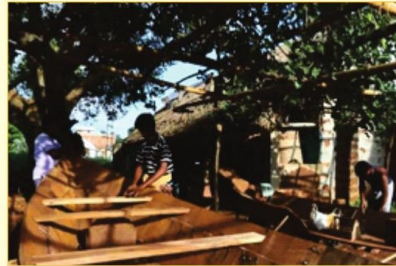

The first batch of 90 students successfully completed the course in Fitter Fabrication, Industrial Welding and Technician (Production)

Skill Development Institute, Ahmedabad, was inaugurated on September 23, 2017 by Union Minister for Petroleum & Natural Gas and Skill Development and Entrepreneurship, Shri Dharmendra Pradhan. The first batch of 90 students successfully completed the course in Fitter Fabrication, Industrial Welding and Technician (Production) after going through a six month residential training at the premises of ADS Foundation. The placement letter were handed over by Director (HR) of ONGC on 16th April 2018 to all 90 students. From next year onwards, the number of trades will be increased from three to nine, benefiting 780 youth during the year 2018-19, through ONGC's training partner ADS Foundation. Increasing the trades will raise the budget from current Rs 86.58 Lakhs to Rs 4.90 Cr in a year. A permanent centre will be set up at Ahmedabad with contribution from eight other Oil PSEs.

Development of Model Village in Mangalajodi, Odisha

Mangalajodi, a tiny village located on the wetlands of Chilka lake in Odisha has been a silent host to thousands of migratory birds from across the globe. They have protected this magical bio-diversity for centuries, where the birds, buffaloes, insects and the fish creates a harmonic eco system. ONGC is the first company to have taken up a holistic approach to develop this hamlet into a model village. Based on need assessment, multiple CSR intervention has been taken up which includes Installation of Solar Street Lights, Construction of Individual Household Toilets, creating drinking & portable water facilities, providing boats to the villagers for creating sustainable livelihood, construction of school toilets and many more livelihood generation and infrastructure development project in the last one year. An amount of Rs. 6.31 Cr has been sanctioned towards undertaking these projects.

Smart Gram Yogna at Daula village in Haryana

ONGC took up the initiative for construction of senior secondary school building at Daula village in Haryana as part of Hon'ble President of India, Smart Gram Initiative, at a cost of Rs 2.96 Cr. this 18223 sq ft school building will have 12 class rooms, 2 staff rooms, principal chamber, three laboratories/Multi-Purpose activity room, library, craft room and a computer room. The construction work is scheduled to be completed in 15 months. Indian Society of Agribusiness Professional (ISAP) is the NGO partner for this project. The construction will be undertaken by ISAP partner M/s Prashak Techno Enterprises Pvt Ltd by using habitech nivara tantra technology (a unique cost effective and eco-friendly technology)

इन्द्रकोट

Revival of Samskrit Language

In the years to come nation may experience a new wave of Samskrit popularity, foundation of which is being laid through this CSR project of ONGC. With an objective to revive the Samskrit language by developing user friendly content ONGC partnered with Samskrit Promotion Foundation in preparation of text book from primary to higher secondary classes, teachers training material, workshops, samvaadala training in spoken English, research on Samskrit education and publication of journals, developing online content and many more activities. An amount of Rs 10 Cr. has been sanctioned for implementing the project in Two Phases.

ONGC Solar Street Lights project

ONGC with a mission to light up the remote villages of our country has installed more than 7500 solar street lights across the country at a cost of Rs 14.0 Cr in the last two years. To take up this mega project, ONGC has engaged MNRE recognized partner, who shall also ensure maintenance of these street lights for 4 years through AMC.

ONGC -MRPL Lady Goschen Hospital, Mangalore

The Lady Goschen Hospital established in 1849, at the heart of Mangalore City catered to lakhs of women from the entire Konkon region and beyond. This Hospital is exclusively dedicated to the women patient. Women from Karnataka and others areas of Konkon region are largely dependent on this hospital for their treatment. Due to increase inflow of patient there was an urgent need for additional facilities. ONGC Board sanctioned an amount of Rs 12.78 Cr towards construction of new 'ONGC-MRPL Wing' for Government Lady Goschen Hospital, Mangalore. The new ONGC MRPL wing of the hospital will address the long standing need of the women patient of the region. MRPL initially contributed Rs 8.89 Cr towards implementing this project before ONGC committed itself to setting up the new wing of the Hospital. The new hospital building is scheduled to be commissioned in 2018.

Varisthajana Swasthya Sewa Abhiyan: Doorstep medical treatment for elderly, women and children

This flagship CSR project of ONGC implemented in partnership with HelpAge India has succeeded in providing door step medical treatment to more than one lakh elderly citizen, women and children through Medical Mobile Unit in the operational areas of ONGC. The project was initially launched from 2010 to 2016 with 20 MMU's. However, considering the number of elderly citizen being benefited through this project, ONGC Board has sanctioned, 11 new MMUs in the year 2016-17 in addition to the existing fleet of 20 MMUs for serving the community in the remote areas for another three years till 2019. These Mobile Medicare Units are equipped with a doctor, paramedics and a social protection officer. They provide on the spot medical treatment and care. An MMU visits each village once a week. The total amount sanctioned towards implementation of this project is Rs 36.35 Cr from 2010 to 2019.

ONGC Super 30

ONGC has set up a Super 30 centre at Sivasagar to train 30 aspiring students every year to get admission in IITs and other premier engineering institutes of our country. Three batches have already completed the course successfully since 2014. The fourth batch of 30 students are currently undergoing training at Sivasagar ONGC Super 30 centre. The project is being undertaken in partnership with Centre for Social Leadership. An amount of 2.77 Cr has been sanctioned towards this project since the last four years

Ekal Vidyalaya

ONGC has partnered with Bharat Lok Shiksha Parishad for reaching remote villages in different parts of the country in order to provide free education to children through 'Ekal Vidyalaya'. This project covers 420 Ekal Vidyalayas in as many villages of rural, tribal and backward areas in 10 states. With average enrolment of 30 students per school, it is targeted to impart free basic informal education to 24,000 students, with a financial implication of Rs.1.92 crore for a period of two years.

Skill Development through CIPET

The project is for job oriented technical skill development training on plastic processing & manufacturing for 220 youth in tool room mechanic operator and injection molding machine operator at a cost of Rs 1.51 Crore. The beneficiaries of this project are youth from West Bengal, Odisha, North East and Rajasthan. The initiative has been conceptualized with special focus on SC/ST beneficiaries. The project at Bhubaneswar has been completed with 100% job placement of 120 candidates.

S-Vyasa boys Hostel

ONGC has supported 'Vivekananda Yoga Anusandhana Samsthana' (VYASA) with financial support of Rs.12 crore towards construction of a 350 bed boy's hostel at S-VYASA University campus located at Gidden Halli, Jigani Hobli, Bangalore. The hostel will have all the latest facilities including solar lights, solar heating system, CCTV, lift, interior furniture, electrical, etc. Free accommodation will be provided to ST/SC and Tribal students of S-VYASA University whereas deserving poor students will be given 50% concession. The boys hostel is in the final stage on completion.

Ekalavya Centre for Organic Agricultural Research and Training

To realise the Hon'ble Prime Minister's goal of doubling Farmers' income by 2022 and reduce the carbon footprint, ONGC has undertaken a project with Ekalavya Foundation (Ekalavya Centre for Organic Agricultural Research and Training) to enable organic farming in the country at Tandur and Vikarabad Mandal. This mandal is one of the most backward mandal in the region inhabited by SCs and STs. The project will be immensely beneficial for increasing the scope of organic farming in the entire Telangan and other neighbouring region. This project will help the farmers and local youth to enhance their livelihood by imparting them employment with enhancing vocation skills. It will benefit to about 3500 farmers, 200 students and Consumers in general by way of promoting organic farming. ONGC has sanctioned an amount of Rs. 4.72 Cr for this project.

Swachh Bharat Initiatives

Open Defecation Free Initiative

As part of Hon'ble Prime Minister's dream to make our country Open Defecation Free, ONGC has taken the initiative to construct Individual Household Latrine across the country in partnership with district administration and other NGOs. More than 21085 IHHL has been constructed in Gujrat, Tamil Nadu, Jharkhand, Assam and other states of the country at a cost of Rs 84.66 Cr in the last one year.

Clean Himalaya Initiative

ONGC is the first company to have taken the Swachh Bharat Initiative to the Himalayas. ONGC partnered with IMF to reach the upper Himalayas where every year tons of harmful garbage was left behind by the visiting tourist. From the mountain peaks of Himachal Pradesh to Uttarakhand, more than 13 cleaning expedition have been undertaken as part of "Clean Himalaya Initiative" in the last three years. Tons of garbage has been brought down and disposed in an eco-friendly manner. An amount of Rs 87.56 Lakhs has been spent towards this initiatives.

Deep Water Drilling Project along the Paleo Channel of river Saraswati

Through this project ONGC in partnership with WAPCOS is drilling 10 Deep water well along the paleo channel of the sacred mythological river Saraswati, which is believed to be in existence since millions of years ago. A tripartite agreement was signed between ONGC Foundation, implementing partners WAPCOS and Harayana Saraswati Heritage Development Board on 20th July 2017. The project is being implemented at a cost of Rs 5.64 Cr. Nine out of 10 deep water wells have already been drilled. These wells are being gainfully utilized for addressing the water problem of the villages in Harayana.

Green Rameswaram- Solid Waste Management Project

ONGC has undertaken a solid waste management project in four municipal ward of Rameswaram in partnership with Hand In Hand at a cost of Rs 67.21 Lakhs. The project deliverables includes setting up of robust infrastructure for solid waste management providing vehicles for door to door waste collection, developing and putting in place systems and human resources for ensuring cleaning of roads, drains, collection of garbage and waste, segregation of waste into recyclable and biodegradable categories and processing of the waste in both the categories in a sustainable manner.

Considering the success of the Phase I of the project in 4 Municipal ward of Rameswaram, the project was extended to four wards of Thangachimadam village. An amount of Rs.94, 95,554/- has been sanctioned towards implementing the second phase of the project at Thangachimadam Village Panchayat, along with IEC intervention, in Rameswaram Municipality area.

Bio-CNG Plant at Haridwar

ONGC has undertaken a unique initiative in Haridwar to convert cow dung to useful fuel and value added products by setting up Bio-CNG cum Fertilizer & Bottling Plant at Haridwar at cost of Rs. 1.6 Cr. The plant will be run by the largest Gaushala in Uttarakhand and will help maintaining clean hygienic waste management in the Gaushala premises. It will facilitate availability of clean environment to the local population of Haridwar and also help in protecting the fauna i.e. 2200 non-milching cows at Gaushala by way of making the Gaushala self-sustaining from the revenue generated from the project. The plant will also produce organic solid and liquid fertilizers which will be distributed among the local farmers thereby promoting organic farming.

Highlights of other Swachh Bharat Initiatives 2017-18

- 21085 nos. of IHHL constructed across India
- 53 community toilets projects
- 234 school toilets
- 181 Water RO Plant/ Water ATM projects
- 358 Tube Wells installed
- 11 Solid Waste Management project
- 14 projects on Smoke Free Village
- 3 project on development and beautification of parks.
- IEC activities in 5592 Schools

Initiatives towards Northeast and Jammu & Kashmir

B Ed College, at Nirjuli

ONGC in partnership with Vivekananda Kendra Vidyalaya Arunachal Pradesh Trust is setting up a B Ed College at Nirjuli for training of teachers. The construction work is in progress and classes has already started on a temporary building. An amount of Rs 5.90 Cr has been sanctioned towards implementing this project. The construction of the B Ed College is scheduled to be completed by end of 2018

Model Village Development for Revival of Korbong Community at Tripura

With only 120 surviving population, the Korbong community of Tripura was on the verge of extinction. To save this fast disappearing community, ONGC partnered with Tribal Engineer's Society to develop this village into self-sustained model. As part of this project permanent infrastructure was developed for community centre, market shed, toilet blocks and irrigation facilities. Also, livelihood opportunities was created for piggy, goater, fishery, duck rearing, etc. It was a 360 degree intervention for revival of the Korbong community at a financial implication of Rs 65.50 Lakhs.

Green Hub Project

This is an unique initiative to train 20 youth of North East every year in wild life videography and documentation. The Green Hub project is implemented in partnership with North East Network. The main objective of the project is to create a team of environment enthusiast having expertise in conservation. In the last three years 60 youth and women are being trained. The Centre has recently been conferred with Manthan Awards in the category of Environment & Green Energy for leveraging the power of youth to conserve biodiversity through a digital platform. An amount of Rs 60 Lakhs has been sanctioned towards implementing this project in the last three years.

ONGC partner's with Indian Army at Jammu & Kashmir

In the last two years ONGC in association with Chinar 9 Jawan Club has undertaken Skill Development program for empowering women and youth of Jammu & Kashmir. As part of this initiative 120 Kashmiri women from Baramulla and neighbouring areas have been trained in Fashion Designing, Cutting & Sewing at a cost of Rs 33.84 lakhs. Further, through another Skill development program, 150 youth in 'Hospitality' and 150 women in 'Retail Sales' has been imparted training at a cost of Rs 17.34 Lakhs. Out of the total 300 students, trained in Hospitality and Retail Sales, 201 (boys & girls) have already got placement in different industries. Some of them are placed in premier hotels like Taj and Maurya. These skill development training have been imparted through a NGO named REACHA. Prior to these initiatives in Jammu & Kashmir, ONGC took the initiative to construct 100 IHHL in the international border village of Babiya, Ladwal and Karol Bidho falling under Mahreen block of Kathua District in Jammu & Kashmir.

Women of Baramulla undergoing training

Recently, ONGC supported a rehabilitation project of three houses in Kalgai Village, near Uri which were destroyed during an operation by Army leading to elimination of four terrorist on 23-25 Sep 2017. The success of the complete operation was attributed to the timely information received from the villagers about presence of terrorists which highlights the bonhomie and confidence shared by Army with the locals. The families were rendered homeless due to the damage suffered during the operation, however there were no complaints, no regrets from the locals. The Army was prompt and provided immediate relief and pledged to re-build the houses at the earliest. At this stage, ONGC stepped forward to rehabilitate the three families and completed the project in a record time at a cost of Rs 15.73 Lakhs.

Village house destroyed by terrorists

Village house after reconstruction

Some of the other major projects being implemented in Northeast

"Inauguration of Girls hostel at Hallong"

- Constructed 11,165 IHHL in 4 districts of Assam; Project cost :Rs 13.39 Cr
