

## JESUIT CONFERENCE OF INDIA

Transforming Lives with Sustainable Development

Jesuit Conference of India established in 1978 is one of the six conferences of the Society of Jesus, an international organisation that has its presence in most countries of the world. While education has been our core strength, the Jesuits have also done pioneering work in the areas of ecology and environment, skill development, women's empowerment, village development, alternate energy and such. Jesuits in South Asia are engaged in the most difficult to reach areas, addressing and highlighting various issues. The USP of the Jesuits is a life time commitment of its members and partners to education and social causes.

Jesuit Conference of India is spread across 20 Provinces/ Regions in South-Asia covering most parts of India, Nepal, Sri-Lanka and Afganistan.

### JesuiTec Technical Education

Youths from the poorest section of the society are provided with formal training in courses like Turners, Fitters, Welders, Electrician, Automobile Mechanic, CNC Operator, etc. through 25 technical training institutes under the banner of Jesuitem.

### Ecology & Environment

The Jesuits through innovative programs in research, awareness campaigns, bio-diversity conservation, natural resource management, renewable energy and eco-spirituality shows their commitment towards creating a common home.

### Sankalp Supplementary education

An initiatives by the Jesuits in South-Asia that facilitates quality and inclusive education for the poorest sections of society.
